Dear Bob:

I received the copy of your speech on Latin America, which I found had the power of an honest statement. I am afraid that time has run out for me to make any comments that might be of use in the delivery of your speech considering that today you will have delivered the second part. There is more than one topic that I would like to have given you my views about.

I shall be at the Pan American Union until next month when I am returning for my home leave to Argentina. Should you deem it of interest, I would be only too happy to talk about these matters at your convenience.

All the best,
